Dear Congressman:

I am writing to seek your support for Bill HR 603 introduced in the House on February 3, 2003 by Congressman Major Owens and which has been languishing in Subcommittee on Immigration, Border Security and Claims since that time. The passage of the Bill will ensure that the 292 Montserratians earmarked for deportation on February 27, 2005 will not occur if this Bill is enacted immediately.

These folks have lived and worked in the US for the past eight years and have been successful in all facets of their time here. They are not a threat nor a burden to the United States and have been self sufficient. They were not given any assistance by the United States government. So what they have achieved is by dint of hard work.

It is of the utmost urgency and importance that these folks, and by extension, their children who are United States citizens do not experience this inhumane act. We are counting on your humanitarian record to ensure that these victims of a volcano do not have to suffer a third devastation in their lives.”

Respectfully.

John Doe

PS: You can, of course design your own letter.

You would all be pleased to know that there is a website:

www.CongressFax.com and you can send all your faxes for free. It is hassle free. Let me know how you get on with it.

NB: It would be good if everyone who can write vary the information. We need at least a million fax asap. This is a really helpful site.
